Motivated IT undergraduate specializing in Full Stack Development (MERN) with hands-on skills in React, Node.js, Express, MongoDB, HTML, CSS, JavaScript, and testing (Postman, Cypress). Successfully managing the demands of dual academic programs at SEUSL and SLIIT. Seeking a Full Stack Developer Internship to apply technical expertise and problem-solving skills in real-world projects.

Education

BICT (Hons) in ICT Specializing in Software Technology South Eastern University of Sri Lanka (SEUSL)	2021 - Present
BSc (Hons) IT Specializing in Information Technology Sri Lanka Institute of Information Technology, Malabe (SLIIT)	2021 - Present
St. Sylvester's College, Kandy, Sri Lanka GCE Advanced Level Sri Lanka GCE Ordinary Level Sri Lanka	2007 - 2020

Certificates

Introduction to Cloud Computing offered by IBM

MongoDB Certificates offered by MongoDB

Operating Systems Fundamentals offered by Akamai Networking

Postman API Fundamentals Student Expert offered by Postman

Oracle Cloud Infrastructure 2025 Certified Foundations Associate offered by Oracle

Multicloud Network Associate offered by Aviatrix

AWS Cloud Practitioner Essentials offered by AWS

Projects

Travel Management System - Green Holiday Center

- Built a full-stack travel management system with React JS, Node JS, Express JS and MongoDB enabling CRUD operations for tourists, guides, vehicles, drivers, and hotels.

CareerLeap - social media platform (User Management Component)

- Built a full-stack social media platform using MERN, with secure backend user management (authentication, profiles, RESTful APIs) and a responsive React front-end for seamless user interactions.

Supplier Management System (SMS) - E2E Automated Tests

- Automated end-to-end testing for a MERN stack Supplier Management System using Cypress, ensuring reliable CRUD operations, UI responsiveness, and seamless module integration while improving system efficiency and usability.

TeaWedha - Smart AI Tea Disease Detection

- Developed a mobile AI and IoT app using CNNs and LSTMs for real-time tea disease and pest detection, enhancing crop management as part of final year research at SLIIT.
